# ***I. INTRODUCTION***

In this project main task is personal management system, manages and displays an employee. In the first page there are sign in (login) and sing up (register) pages. Second page is about management of employees, I mean delete an employee, record a new employee and search by full name the employee also there are some things in this page. In third page we can see the chart graphic about some companies. It demonstrates that in which company how many men and woman works. Also, in this page we can go back page and first page etc.

In this is first page firstly you can register (sign up) the system. If it is everything ok. The message below will appear on the screen.

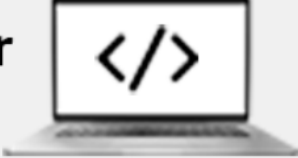

Message

**i** You have been successfully registered.

After that this message you can close the message then you can log in to the system by typing your information with click login button.

When you log in to the system you will see below page. This is the second page we are seeing. Actually, this page is for management the employee's information system. You can delete the personal, you can save or record a new employee. Also, you can search the personal with only its full name by writing full name in full name textbox.

If there is unwanted information in the table, for example first row ID is 32 we can delete it. If you write its ID number and click the button that Delete by ID then that personal will delete in this system.

Message

 You successfully deleted your informations.

After that click the button this message will appear. This message is saying that you successfully deleted its information. I mean you deleted that person, employees or personal successfully in this system.

In this picture showing us successfully deleted. Because we don't see any unwanted information. Like previous one.
